

AMIRDA VARSHINI MN

FULL STACK DEVELOPER

+91 8248445188 | amirdavarshini14@gmail.com | <https://amirdavarshini-mn.github.io/portfolio/>

SUMMARY

Skilled Dotnet-Angular Full Stack Developer with **7+ years** of experience in software development. Committed to improving operational efficiency and data accuracy. Actively pursues enhancements in data quality and tackles challenges through ongoing process improvements. Utilizes Google Analytics and usability standards for informed decision-making, focusing on continuous innovation and analytical insight.

EXPERIENCE

Software Developer

July 2023 – Present

Cognizant Technology Solutions, Coimbatore

Project: Pacific Gas and Electric

Environment: .NET 9, Web API, jQuery, JavaScript, SQL Server, MVC

- Participated in the complete software development lifecycle for specialized utility applications at PGE, concentrating on electric and gas line infrastructure.
- Delivered development services along with ongoing support for these essential systems.
- Led the complete application development process, starting from the initial idea to successful deployment in production, along with ongoing support after launch.

Project: Microsoft

Environment: .NET 8, Web API, SQL, Postman, Swagger

- Engineered robust API controllers to manage comprehensive CRUD operations, ensuring seamless data orchestration and system reliability.
- Validated endpoint functionality and performance through rigorous testing using Swagger and Postman to ensure alignment with technical specifications.
- Resolved complex defects identified during the development phase, maintaining code integrity and optimizing application stability.
- Developed and executed unit test cases to ensure high code coverage and the long-term maintainability of API endpoints.
- Demonstrated a commitment to project timelines by consistently delivering high-quality solutions within strict Agile deadlines.

Project: Pearson VUE

Environment: Angular 19, .NET 9, Microservices, JIRA

- Architected and maintained exam development applications utilizing a Microservices architecture to ensure scalable and modular system performance.
- Operated within an Agile framework, consistently delivering high-quality outputs through active participation in Sprint-based development cycles.
- Managed the end-to-end development lifecycle for assigned user stories and defects, taking full ownership from initial design through to final Git repository integration.
- Facilitated comprehensive workflow management by tracking project progress and status transitions across all developmental stages within JIRA.

Senior Software Developer

December 2021 – July 2023

Aspire Systems India Pvt. Ltd., Chennai

Project: TMRW Platform (GEMS Education)

Environment: .NET Core 3.1, Angular 12, HTML, Postgres-SQL, Putty, Mongo DB

- Enhanced the education sector by integrating various modules that connect teachers, students, parents, and administrators.
- Transitioned academic information previously managed manually to the innovative TMRW Platform.
- Primarily concentrated on designing and developing based on the client's specifications.
- Prioritized bug fixing and promptly addressing client-reported issues.

Software Developer

February 2019 – September 2021

Sierra ODC Pvt. Ltd., Coimbatore

Project: VWR - CBILL System

Environment: C#, ASP.NET MVC, Oracle, JavaScript, jQuery, HTML, CSS, Bootstrap, Web API, DevExpress

- Developed finance-oriented applications generating customized invoice reports for VWR International.
- Managed DevExpress Xtra Reports development and project releases.
- Addressed Web API bug fixes and client-reported issues.

Project: Enterprise Facility Management System (eFACILITY)

Role: Software Developer - Trainee

- Assisted with resolving reported bugs in Time and Attendance, Project Management, and Help Desk modules.
- Engaged in development activities related to product enhancement for workforce operations.

SKILLS

Web Framework:	Angular 19
Scripting Language:	jQuery, JavaScript
Source Maintenance:	TFS, Azure DevOps, GitHub
Technologies:	.NET 9, Web API, Entity Framework, ADO.NET, MVC, C#
Databases:	SQL Server, Oracle, Postgres-SQL, MongoDB

EDUCATION

Master of Computer Applications (through BCA)

Bishop Heber College, Trichy, Tamil Nadu | April 2018
